Onboarding 1 Verify email

Email code sign-in. The code step is shown; the email step is a single field and a Send code button.

DESKTOP 1280 PX

MOBILE 390 PX

Errors

Wrong code: "That code didn't match. Try again." Expired code offers Resend.

Rate limits

Repeated attempts show a wait time, never a silent block.

Boxes

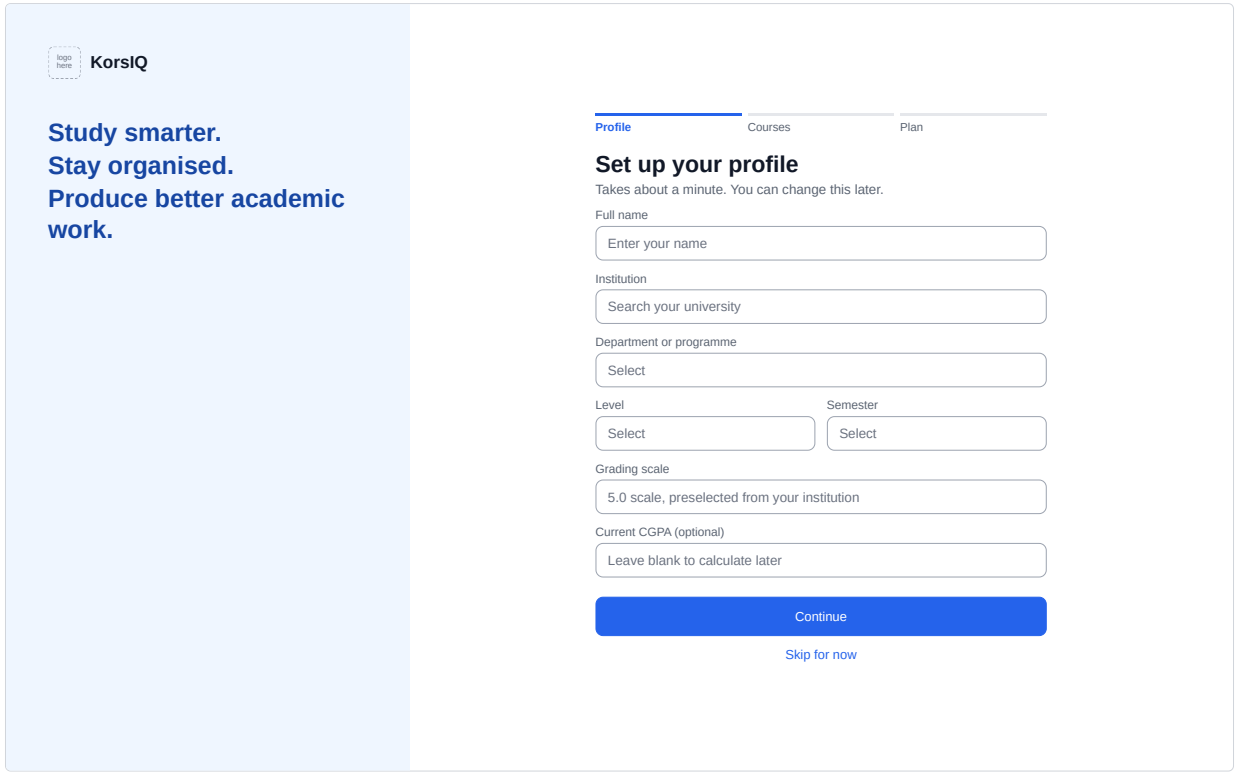

Six single-digit boxes on mobile; paste fills all six.

Sample content for layout review only. Logo shown as a placeholder: use the original asset. Not real student data.

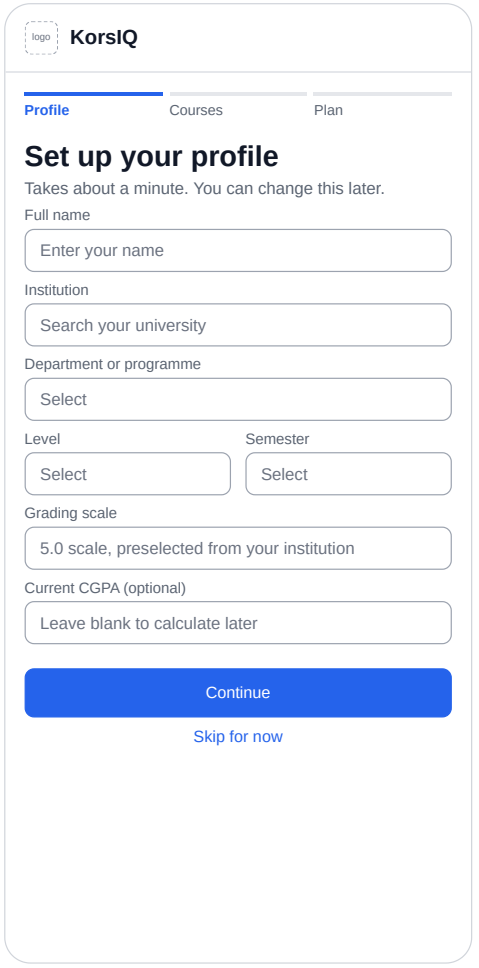

Onboarding 2 Academic profile

Only essentials; every non-essential field is skippable.

DESKTOP 1280 PX

MOBILE 390 PX

Grading scale

Seeded from the institution (5.0 and 4.0 scales); changeable.

Skip

Skipping keeps the student moving; the dashboard prompts to finish later.

Mobile

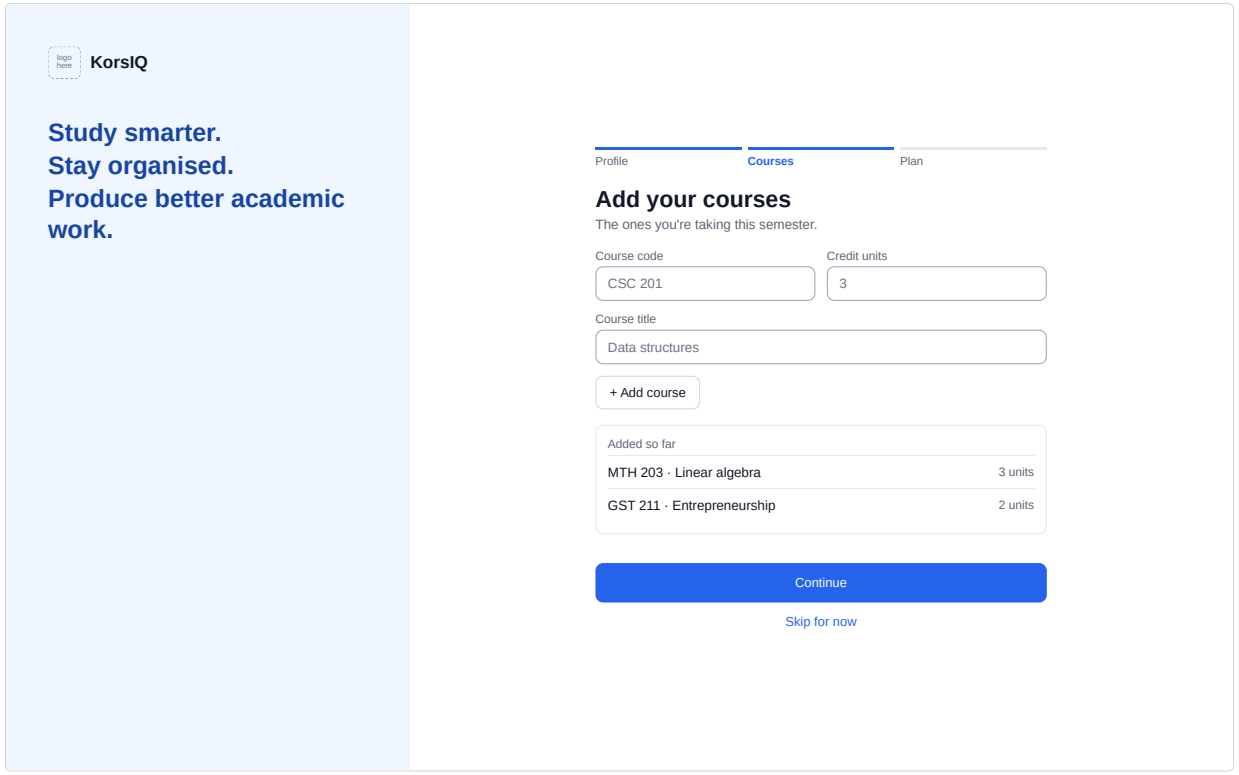

Fields scroll; the Continue button stays reachable above the keyboard.

Sample content for layout review only. Logo shown as a placeholder: use the original asset. Not real student data.

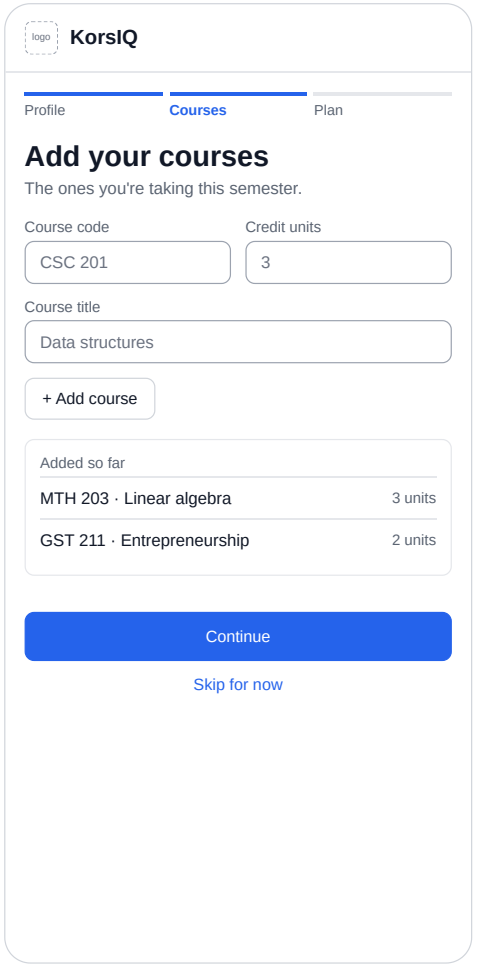

Onboarding 3 Add courses

Course management itself lives in Study Planner; this step just seeds it.

DESKTOP 1280 PX

MOBILE 390 PX

Empty state

"Add the courses you're taking this semester." with the form open.

Remove

Each added course has a remove control with an accessible name.

Validation

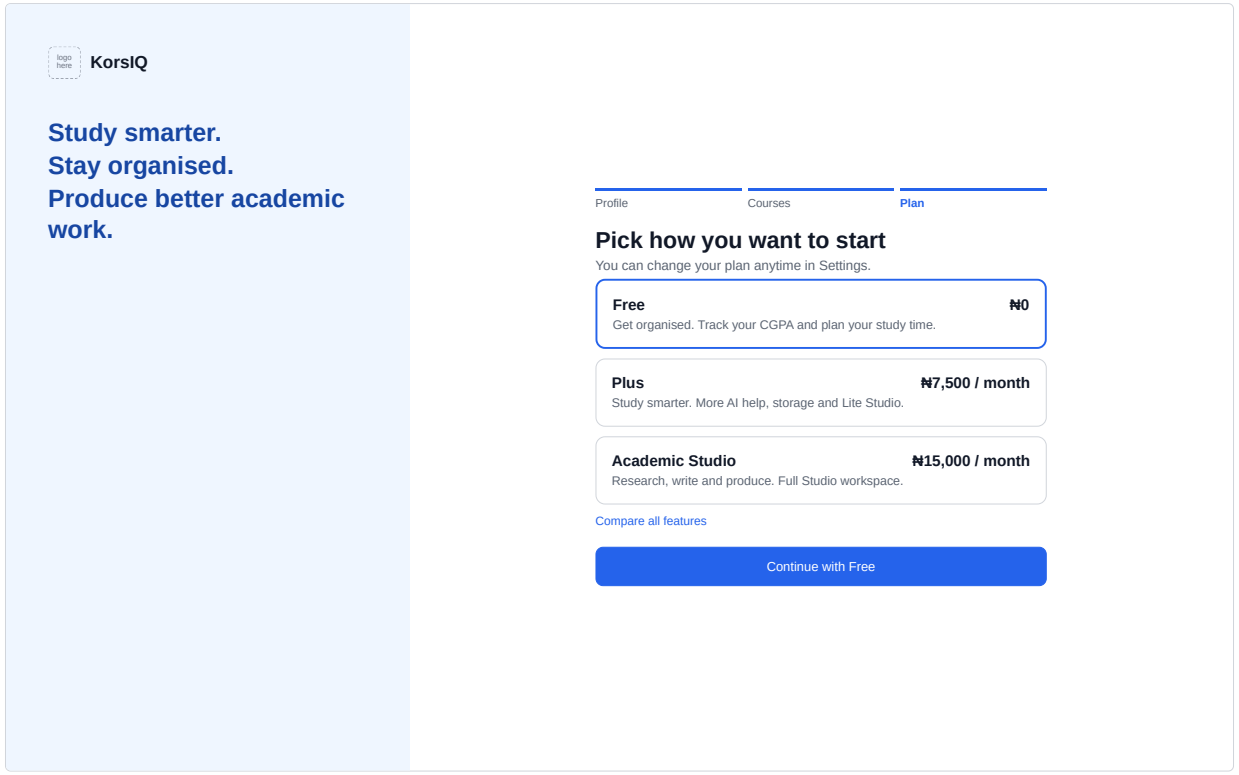

Units checked on entry, with the error beside the field.

Sample content for layout review only. Logo shown as a placeholder: use the original asset. Not real student data.

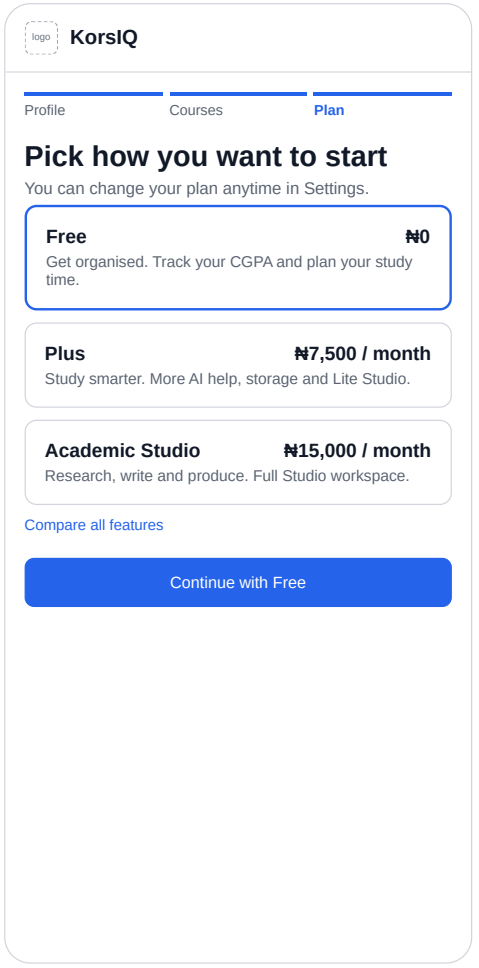

Onboarding 4 Choose a plan

Optional and non-blocking: Free is preselected and the student reaches the dashboard either way.

MOBILE 390 PX

Default

Free selected; the button label follows the selection.

No numbers yet

Only names, confirmed prices and one line each; limits stay out until the beta review.

Payment

Choosing a paid plan opens checkout; failure returns here with Free kept.
